TESTIMONIALS

Roopeshwari Shanmugam Sitheswaran · 1st

Purchase Assistant | Supply Chain Management

January 23, 2025, Roopeshwari was Vijay's client

I had the pleasure of learning AI in procurement and supply chain from Vijay Venkatesh, and I can confidently say that his expertise and teaching approach were nothing short of exceptional. Vijay is a brilliant educator who combines deep technical knowledge with a practical understanding of procurement processes, making complex concepts easy to grasp and apply. From the outset, it was clear that Vijay's background in both AI and procurement was vast and well-rounded. He was able to explain the intersection of artificial intelligence and procurement in a way that was accessible, relevant, and tailored to the specific challenges. His teaching wasn't limited to theoretical frameworks but extended to real-world applications, ensuring we understood how AI could drive efficiency, optimize sourcing, and improve supplier relationship management. I highly recommend Vijay to anyone looking to deepen their understanding of AI in procurement and supply chain—his classes are truly transformative.

I have had the pleasure of being taught by Faculty Vijay Venkadesh during my time at Fhyzics Business Consultants Pvt. Ltd., and I can confidently say that he is right up there with the best of the best. His knowledge of the subject matter is quite impressive.

Vijay encourages an inclusive and two-way learning environment in his classroom with students feeling comfortable to ask questions and discuss or challenge an idea. He is very accessible, always providing additional help and resources to ensure students' success both in and out of class.

His love for the subject is contagious; he has a knack for igniting curiosity and passion for learning in each one of his students. Faculty Vijay Venkadesh goes the extra mile every day, making sure every one of his students has an enriching learning experience.

I have no doubt that his dedication and expertise will positively impact many more students in the years to come.
